

JUNSHENG MACHINERY

多层共挤箱包板材生产线

Multi-layers Co-extrusion Luggage Panel Extrusion Line
(PC, ABS/PC+ABS Alloy)

产品简介/Brief Introduction

该生产线主要用于箱包用ABS板材和ABS/PC合金板材的生产，同时也可生产其他用途的通用塑料挤出板材。能保证生产的板材厚度均匀、表面光滑、光亮、内部美观。

骏升设备设计科学、配置合理、加工工艺先进，具有良好的性能和较高的真空成型成品率。

This production line is mainly used for ABS plate for suitcase and ABS/PC alloy plate production at the sametime for general plastic extrusion plate production for other uses.It can ensure the producing plate with uniform thickness, smooth surface, brightness, internal

performance and high vacuum forming yield since its design scientific ,reasonable configuration and advanced processing technology.

技术参数 / Main Technical Specification

型号/Model		JS-XB100/65	JS-XB110/70
螺杆直径 Screw dia.	mm	100 / 65	110 / 70
长径比 L/D ratio	L/D	35:1	35:1
产品宽度 Product width	mm	900	900 - required width
产品厚度 Product thickness	mm	1.0 - 3.5	1.0 - 5.0
产能 Output	kg/g	200-300	300 - 450
